

**Exercise 1: Find the CSS selectors for the following elements in the HTML above. (Hint: There will be multiple solutions for each)**

The entire table: `table`

Just the row containing "Kurstin McCoy": `.kurtis`

Just the elements containing first names: `.firstname`

**Exercise 3: Go to <http://rochelleterman.github.io/>. Using Google Chrome's inspect element:**

Change the background color of each of the rows in the table:

```
#godfathers {  
    background-color: blue;  
}  
#mexican {  
    background-color: green;  
}  
#cities {  
    background-color: red;  
}  
#wu-tang {  
    background-color: purple;  
}  
#wire {  
    background-color: orange;  
}  
#comedians {  
    background-color: cyan;  
}  
#holidays {  
    background-color: yellow;  
}
```

Find the image source URL

```

```

Find the HREF attribute of the link.

```
<a href="https://www.youtube.com/watch?v=DN2LFGd6thQ">link</a>
```
